

7352-7353

Free

DESIGN: BJÖRN SIESJÖ

FREE 7352-7353 is a free standing luminaire with direct and indirect light distribution, which makes a highly flexible lighting solution. The Free series also includes a wall model.

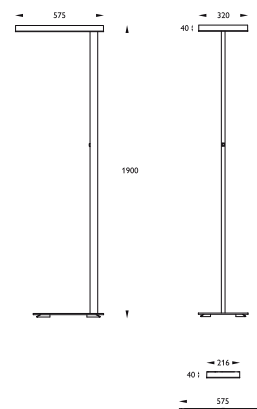

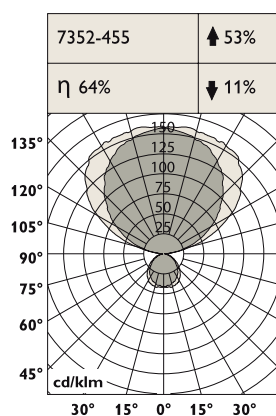

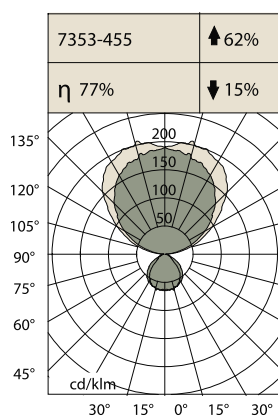

TECHNICAL INFORMATION 7352-7353 Free

Housing in die cast aluminium finished in silver grey. Pole in extruded aluminium. Exclusive screen printed plain or prismatic glass and Miro 5 reflector system. HF control gear as standard. Dimming and daylight/presence detection are optional. A double switch variant for turning on either the inner, the outer or all four lamps is available. A wire management system allows excess mains cable to be stored under the base.
